P.O. Box 6360, Wetaskiwin, Alberta T9A 2G1
Canada

Belt of Orion Nomination Criteria

1. All applicable parts of the Nomination Form must be completed and the form signed by the Nominator and Secunder. The Nominator and Secunder must be careful to address each point in the criteria and to verify the accuracy of the data provided. Incomplete forms will be returned.
2. Use a clear, easy to read font (at least 12 point) on 8 ½" X 11" white paper. You may print on both sides of the page. If completing the form by hand, please print clearly. Do not submit applications in binders or report covers or include original documents or photos. Photocopies and scans will be accepted.
3. Please **submit a total of ten (10) copies** of your entire nomination application.
 - **one** with original signatures for Canada's Aviation Hall of Fame files...**and**
 - **nine** additional copies – one for each member of the Nomination Review Committee.
4. A detailed description of the nominated entity's purpose, objectives, scope and contributions to Canadian aviation/aerospace must be provided. It should be no more than five (5) pages in length. The description must indicate in which sector in Canada the nominee operates (public, not-for-profit, for-profit) and substantiate that the nominee is based in Canada and is legally incorporated and/or constituted in Canada.

Nominated entities may be made up of specific project-focussed teams or work groups operating in Canada within otherwise eligible entities. Entities resident in Canada with international as well as domestic activities are eligible for nomination.

The description must show that the Nominee has demonstrated either a single extraordinary innovative accomplishment or many achievements of consequence over a longer term and that in so doing it has contributed in an exceptional way to the advancement of Canadian aviation/aerospace technology, practices, heritage and culture. Nominators must be aware that the Award is not intended simply as recognition for outstanding business outcomes.

Nominations will be judged on the degree to which they demonstrate the nominated entity's vision and innovation, that the Nominee has generated significant benefits to Canadian aviation/aerospace and Canada as a whole as a consequence of the work or activities undertaken, plus the depth, breadth, cost-effectiveness, durability and extent of peer or other recognition of results.

5. The nomination package should, **if possible**, include copies of:
 - honours, awards and other recognition with applicable dates;
 - relevant supplementary information such as brochures and articles;
 - a clear, sharp image of the nominee's place of business showing the name and/or
 - a clear, sharp image showing the nominee's logo.
6. **Four (4) letters of support** supplementing the nomination are required from persons other than the Nominator and Secunder. These letters must reference factual information, preferably additional to that in the Nomination document, and not just provide favourable opinions. ALL letters submitted must include the return address, phone number and email address of the sender. If the letter is hand written, this information should be printed so it is clearly readable.
7. It is important for nominators to understand that the Nomination Review Committee will not add to details presented, but will merely verify their authenticity and evaluate the Nominee's overall contribution to Canadian aviation/aerospace.
8. Receipt of the nomination will be acknowledged. Nominators will be advised of the status of their candidate's file after the final inductees have been confirmed for the year.
9. Nominations must be postmarked by **June 30th** to receive consideration by the Nomination Review Committee for that year.
10. All Nominations will remain active for a maximum of five years from the date of submission. Following that period, Nominations may be re-submitted for consideration two additional times. Supplementary material submitted during each period of nomination will not extend that period.
